Money Tip #1: Identify and Assess Your Financial Situation Take inventory of your assets: What do you own? What is the approximate value of the things you own (car, house, property, insurance policy—large items)? Identify your income: How much money do you make? Detail your debts: What/who do you owe? When is it due? What interest rates are you paying on each debt? Approximate your monthly bills: What do you pay for rent/mortgage, utilities, gasoline/transportation, phone, food, clothing, insurance, entertainment? Helpful Hint: Keep a log throughout each month of everything you spend. Money Tip #2: Consider Your Lifestyle and

Spending Habits Be introspective: Why do you live the way you do? For career advancement, to please family, to entertain friends, or to live comfortably? Consider what you could honestly do without: Do you pay others to do something that you could do yourself? Do you eat out when you could eat less expensively at home? Money Tip #3: Establish Financial Goals List future expenditures: What future expenses do you anticipate? (such as schooling, purchasing a home, replacing a car, etc). Consider future career and family changes: Are you considering starting your own business, serving in a ministry, getting married, or starting a family? How will these plans change your financial situation? State your future financial goals: Financially, where do you want to be 5 years from now...10 years? What are realistic expectations money saving goals? Money Tip #4: Take Action with Your Finances Pay extra on your debts and stop feeding your debt through unnecessary habits. Establish a savings plan: How much money are you setting aside for the future? How are you preparing for major emergencies and for retirement so that you don't find yourself in debt again? To help you chart your path to financial freedom, grab a copy of June Hunt's Financial Freedom: How to Handle Your Money Wisely. This tool offers practical help to find financial freedom, including: "Five Principles of Managing Money" and "How to Cancel Debt." What perspective should I have of money? Myth: "If you live a godly, Christian life, you will experience financial gain and prosperity." Truth: According to God's Word, godliness is not a means to financial gain. The Bible calls this "a different doctrine" taught by false teachers. Myth:"Money is the root of all evil." Truth: No, according to the Bible, it is the "love of money" that is a root of evil. (1 Timothy 6:10). Money can be used for great good. Myth: "If I ever have enough money and earthly possessions, I will be happy." Truth: Happiness does not spring from your financial situation nor does it come from possessions. "His master replied, 'Well done, good and faithful servant! You have been faithful with a few things; I will put you in charge of many things. Come

and share your master's happiness!" (Matthew 25:23). Finding true financial freedom involves more than having enough money to bask in the comfort of a prosperous lifestyle. It's more than learning to budget expenses, to save regularly, to invest wisely. True financial freedom is being content with what God gives you. And contentment is a matter of the heart! Budget Guide for Beginners: How to Manage Your Money (Save Money Tips, How to Save Money, Budgeting for Beginners, How to Manage Money, How to Bud Matthew Roy 2019-02 How To Manage Your Money Money, the want for money, and money-related issues are universal. Trying to develop a budget that suits one's individual needs and is workable enough to actually stick to is a very common problem. All of us, at some point in our lives, face money-related issues. Sometimes, it is not enough to fulfill our financial goals. At other times, we don't know how to save ourselves from going bankrupt. Having a smoothly working budget is the best answer to all money-related issues. My husband and I just went through a really tough financial patch. With a new baby and all related expenses, we were really living hand to mouth. Rather than adding money to our savings, we were spending our savings quickly. We were very close to having a zero balance in our savings account when we realized that it was time for a lifestyle change, which is really what most budgets require. We had to make several different major steps to get on a budget. We never realized what difference not picking up that party pack of chips from the store aisle could make. No one ever does until they try it. Shifting to a low-rent apartment, letting go of our Toyota Camry and

resorting to public transport, quitting trips to fast food outlets, leaving the six-pack of beer back at the store counter, choosing a cheaper diaper brand, and shopping for our clothes at the wholesale store are some of the many changes that we had to make. We also developed a habit to note each and every expense, down to the last penny. I downloaded budgeting software and logged each and every detail of income and expense into it. We started doing things for fun that didn't require money. For date night, we would go for a walk around the park. By the way, we didn't hire a babysitter; my husband's mom took the baby for a few hours. Long story short, within a few months, we were finally able to actually see our savings reading a comfortable figure. We plan to go on until we are completely free of financial anxiety. That is, we want to save enough so that we can have mental and financial freedom to do things that we want and to fulfill our long-term financial goals. Then, savings can take care of the bills. While I was planning our budget, I did a lot of research. This book is based on that research and some personal experiences that I gained while going through the process. The first chapter is purely theoretical. Chapter 2 contains several budgeting methods and psychological tactics that can help you stay on the budget. Chapter 3 contains a practical, step-wise plan that you can follow to develop your personalized budget. I can assure you that if you follow the methods and techniques that I have provided in this book, you will be able to save yourself from a financial disaster, and you will be able to have a savings account statement that you are proud of. How to Save Money Bob Lotich 2013-07-29 After getting laid off I had to wade through all the frugal tips like "reuse twist ties" and "turn off the lights when you leave a room" to find the ones that really delivered. Sure you can save a few pennies by turning off the lights around the house, but I needed to make bigger money-saving moves. I didn't need to save a few pennies, I needed to save many hundreds of dollars each month. That is what this challenge is all about: taking 21

days to make some drastic, but realistic, changes in order to save at least \$500 each month. If you are anything like I was, you probably have more bills and payments due each month than you have money coming in. You have undoubtedly read other money-saving tips in the past, but just felt like none of them would yield much result. You also probably don't have the time to read through a bunch of fluff, but just want to get to the point! If this sounds like you, then you are who this book was written for! And while this challenge is not intended to solve all your financial problems, it will definitely help you save money! The book is broken out into 21 short chapters, each with a realistic money-saving suggestion that will help you reach your \$500/m goal. To succeed with the challenge you will need to take the chapters day-by-day and not just fly through the whole book in one sitting. Those who read a chapter a day and take action each day will be rewarded with much better success.
